Running live since Apr 2017	Launch Date Second half Feb 2018
LT Average Churn 1.5X per year	LT Average Churn 1.5X per year
<p>Basic structural logic remains same with some tweaks. Expect stock volatility to be high/ may hit upper/lower circuits. Slippages may be high. Users will have to estimate the entry and exit timing as per advice price as it will come over the weekend and take suitable decisions later. Universe of Stock remains ALL NSE listed stocks. Mi20 remains a High Risk - High Return potential strategy. It is NOT RECOMMENDED for safety seekers. <u>Mutual funds</u> remains the best vehicle for low risk money. Will not limit the membership of Mi20 as wish to maximize for charity. Charity will work in the space of Child Healthcare and will be open for direct support and participation. Currently delay in process of formation of Foundation structure. Closure expected by Feb18 end.</p> <p>PLEASE DO NOT SEND ANY MONEY FOR MI20 RIGHT NOW. A SEPARATE CHARITY FOUNDATION BANK ACCOUNT and SEPARATE EMAIL SUPPORT WILL BE INTIMATED FOR THE SAME. PLEASE AWAIT MORE ANNOUCEMENTS AT THE BLOG LATER IN FEB 2018</p>
