*Conservative back test results over 15 years of historical studies for Mi20/Mi25 and Mi50. Over 5 years for Mi10, Mi20, Mi30 and Mi40. Brokerages and slippages assumed. Fees and Cap Gain taxes not included. Worst Draw-down range from -25 to -35% in most products. Mi25 in 2018 is experiencing even more than this. All performance reports are available [here](#)

** Type A and B refer to Momentum Type as measured by early entry/exit (A) or late entry/exit (B) in the momentum cycle. Higher churn-lower drawdown in A /Lower churn-higher draw-downs in B. You may choose any of the three fee options. You may switch from one product to the other at any time using your un-used months of credit. You can suspend your account for few months if you so desire. The fees is non refundable in all cases. #GST applicable. Existing clients from other older fee options can move to these new ones if they wish.
